

Welcome to the MyRYTARY Patient Support Program

Now that you're enrolled, you'll be assigned a dedicated case manager who will contact you. He or she will:

Explain the results of your benefits investigation.

- Your case manager will help you understand your insurance coverage and determine how much your medication is likely to cost

Tell you about affordability options you may be eligible for, such as:

- **Starter Rx Program** – you may be eligible to receive your medication at no cost for a trial period while your dose is adjusted and your case manager reviews your coverage. After this period, you will fill your prescription as you normally would at your local pharmacy
 - Commercially insured individuals are eligible for up to 90 days; first shipment will arrive overnight/next day
 - Federal Health Care Program recipients are eligible for up to 60 days (there is a mandated insurance coverage delay of 5 business days before product can be shipped)
- **RYTARY Co-Pay Savings Card** – if you have commercial insurance, you may be eligible to get your medication for as little as \$25/month*
- **Amneal Patient Assistance Program** – if you are uninsured or have a low income, you may be eligible to receive your medication free of charge[†]
- **Third-Party Foundation Support** – your case manager can provide a list of alternative foundation resources outside the MyRYTARY Patient Support Program you can contact for additional financial support[‡]

Keep you informed about program updates.

- Should the features and benefits of the MyRYTARY Patient Support Program change in the future, you'll be the first to know
